

PAVYAA SRI S

AI Full Stack Developer | Generative AI & LLM Applications

Bengaluru, India | +91 91507 66362 | pavyaasris@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI Full Stack Developer with hands-on experience building generative AI products for education and marketing. Experienced in LLM orchestration, document processing, AI evaluation/grading, prompt engineering, source grounding, multimodal AI, speech pipelines and AI reliability, with full-stack delivery using Python, TypeScript, React/Next.js, FastAPI, Node.js and Supabase/PostgreSQL.

TECHNICAL SKILLS

AI / Generative AI: LLM orchestration, prompt engineering, source grounding, output validation, AI evaluation/grading, OCR, multimodal AI, speech-to-text, text-to-speech, Gemini, DeepSeek, Claude

Languages: Python, TypeScript, JavaScript, SQL

Frameworks: React, Next.js 14, FastAPI, Node.js, Express, Django.

Data / Backend: PostgreSQL, Supabase, MongoDB, MySQL, REST APIs, Row-Level Security

Testing / DevOps: Git, GitHub Actions, Vercel, Railway, FFmpeg, CI/CD, feature flags

PROFESSIONAL EXPERIENCE

AI Full Stack Developer | Arivu Educational Consultants Pvt. Ltd. (ArivuPro) *Bengaluru, India | May 2026 – Present*

- Built and shipped AI-powered education and marketing applications across LLM orchestration, document intelligence, AI grading, multilingual speech, social listening and academic SaaS workflows.
- Built and maintained the AI Quiz-Generation SaaS platform: document-to-quiz extraction, AI generation, verification/repair, teacher review, publishing, question-bank import and student assessment workflows.
- Implemented deterministic objective scoring and model-answer-based AI grading for descriptive responses, while enforcing tenant-scoped database queries and regression tests for multi-tenant data isolation.
- Built LingoCut, a Gemini + FFmpeg dubbing and voiceover workflow supporting 12 code-switched Indian-language variants, with segmentation, retries, checkpointed processing and audio/text validation.
- Shipped MarketInsight Pro, a React/TypeScript marketing-intelligence platform integrating 8+ data sources and multiple LLMs for sentiment/relevance classification, grounded reply drafting, SEO intelligence and historical analytics.
- Delivered academic-platform features including faculty self-onboarding, retroactive class assignment, timetable scheduling, role-based workflows and overlap detection using Next.js, TypeScript and Supabase/PostgreSQL.

PROJECTS

AI Answer Sheet Evaluation System | React, FastAPI

- Built an AI-powered evaluation workflow for handwritten and printed answer sheets, including image preprocessing, model orchestration and question-level marks, feedback and improvement guidance.
- Developed the React upload/results experience and FastAPI backend for prompt construction and batch evaluation; [Live Demo](#).

LingoCut — AI Dubbing & Voiceover | React, TypeScript, Node.js, Gemini, FFmpeg

- Built a full-stack application that converts English educational content into colloquial, code-switched voiceovers and synchronized dubbed video, with long-job background processing.
- Improved reliability through lossless sentence parsing, TTS-to-transcription validation, per-segment retries, checkpoint/resume and pitch-preserved audio time fitting.

Biometric Voting System | Node.js, MongoDB, REST APIs

- Developed fingerprint-based voter verification with modular REST APIs, input validation and duplicate-vote prevention; structured authentication, business logic and data layers using OOP principles.

Institutional Learning Management System | Moodle, PHP, MySQL

- Collaboratively customized and deployed a Moodle LMS used for departmental assignments, resource sharing and student/faculty profiles, with MySQL-backed structured data and faculty-driven requirements.

EDUCATION

Master of Computer Applications (MCA) | Marudhar Kesari Jain College for Women, Vaniyambadi 2023 – 2025 | CGPA: 9.67/10

B.Sc. Computer Science | Marudhar Kesari Jain College for Women, Vaniyambadi 2020 – 2023 | CGPA: 9.0/10

INTERNSHIPS & CERTIFICATIONS

- Machine Learning Internship (30 Days):** Python, data preprocessing and supervised ML algorithms on real datasets.
- Web Development Internship (15 Days):** HTML, CSS, JavaScript, responsive design and cross-browser development.
- NPTEL — Database Management Systems:** SQL, relational databases, normalization and transactions.
- Best Student Award — Mahindra Naandi Foundation:** Recognized for leading the best-performing team in a 3-week leadership and communication training program.
